award 2010

New Zealand Architecture Award

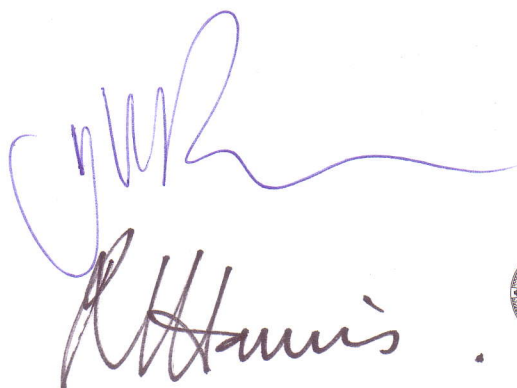

PRESENTED TO Patterson Associates Ltd

CATEGORY Residential Architecture

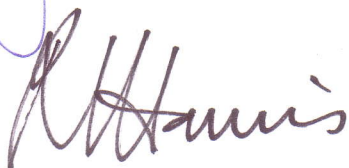

FOR Wanaka Lodge

Simple strategies give surprising results with this confident, striking residence. It offers a fresh, exciting interpretation of the European influenced South Island stone house, and perfectly answers the call of the clients' strong personalities and sociability. The simplicity of the exterior belies a rich interior. Centred around a courtyard is a beautifully orchestrated series of spaces, all alive with a theatrical quality, while carefully placed windows edit specific views. The rural/ industrial material combinations are unusual but successful.
